

MUSIC LICENSING IN CO-OP MODE

the world's first artist-owned sync co-op.

• Press Start

What is **Amerge**?

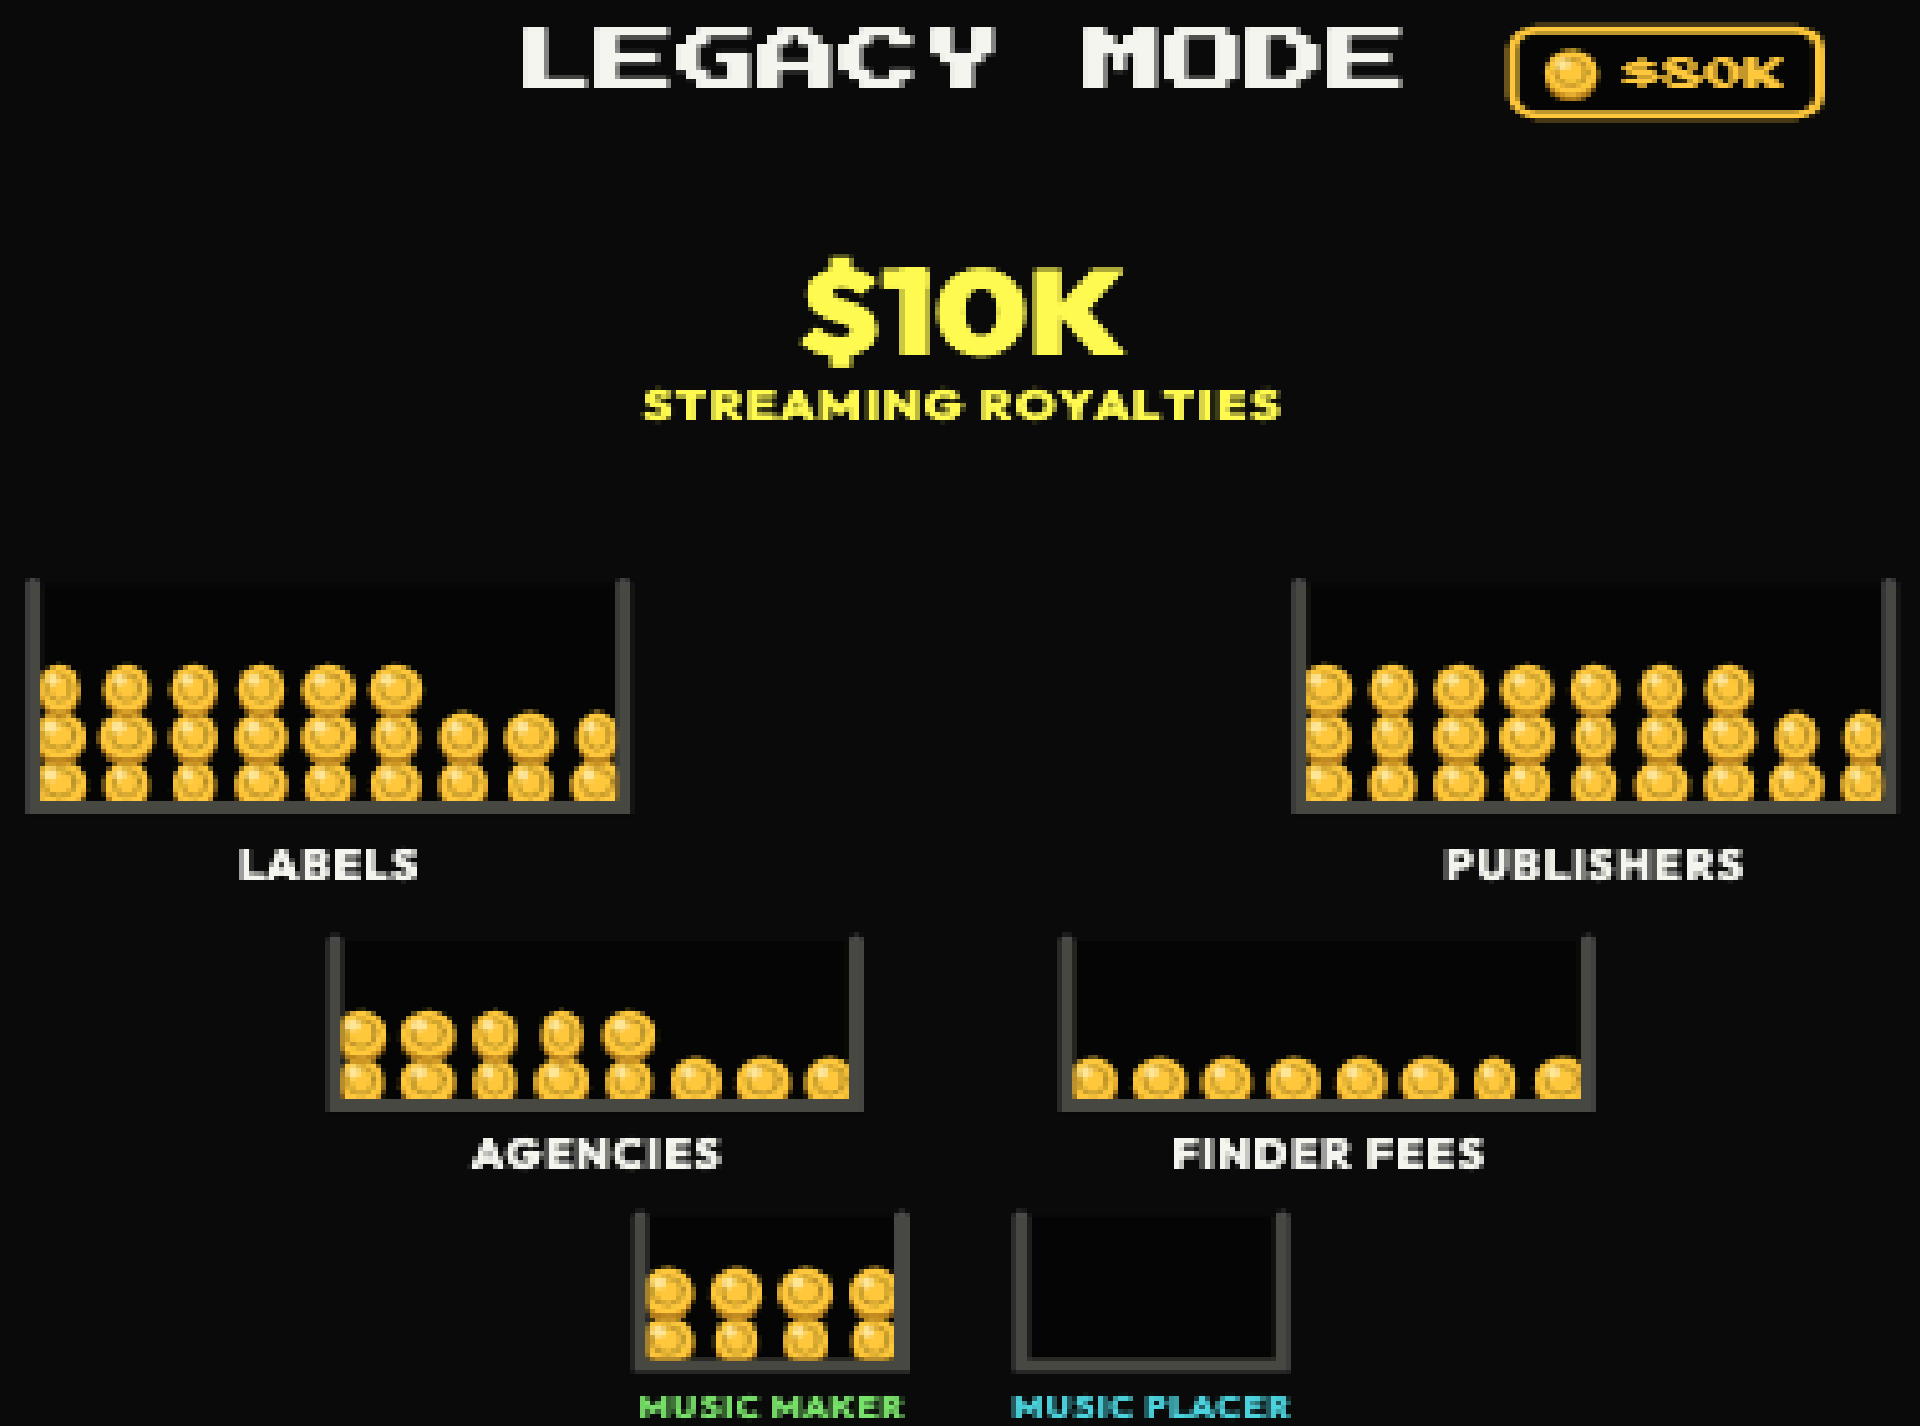

Amerge is transforming the sync game. Creating more **Transparency**, more **Opportunity**, and more **Equity** through our emerging payment technology and cooperative ownership structure. Our curated collective of sync-ready producers, artists, composers and specialty musicians are available for fast-turnaround searches and original songs with active and established artists and bands. Join our 2026 residency September 5-12 and help launch a new era of music licensing in **co-op mode** and own the value we create together.

CO-OP MODE

🪙 \$80K

When we remove the intermediaries, there is more value left for those who do the work of making the music and making the music money.

What makes **Amerge** different?

ADVANTAGE 01

More Transparency

With our emergent payment technology every dollar coming in and every dollar going out of the co-op is visible to all co-op members.

ADVANTAGE 02

More Opportunity

Our community-based structure allows for a wider network of makers, placers, and operators all aligned around long-term catalog value, not just one-off extraction.

ADVANTAGE 03

More Equity

Amerge is owned and led by the artists and workers who provide their talents and labor. We remove the intermediaries and distribute the value created by all of us.
